

Mike Norden doesn't mind competition.
Except when it gets in the way of his customers' success.

IF YOU ASK MIKE NORDEN, he'll tell you he likes healthy competition. Especially on the golf course.

But he's glad that, at First National Bank of Baldwin County, he and his colleagues can cooperate, rather than compete against each other, like they would have to do at most of the big conglomerate banks.

"At FNB, the only scorecard is how well you help your customers succeed. Which frees up all of our bankers to truly work as a team—helping each other to make sure the customer wins," Mike says.

Imagine a team of veteran bankers, all working together for your success.

It's just one more reason it makes sense to team up with Mike Norden, and First National.
